

## Sawai Group Quality Policy

Sawai Group shall establish and maintain a robust Quality Management System based on the Sawai Corporate Philosophy and the Sawai Code of Conduct to ensure the effective and proper performance of quality-related activities appropriate for the nature of our products\*. All Sawai Group officers and employees shall maintain close and timely communication with stakeholders on matters related to product quality and contribute to improving patients' lives by involvement in quality-related activities under our Quality Management System.

We, Sawai Group, make the following commitments according to the nature of our products:

1. To provide high quality products and information by understanding and responding to patients' needs
2. To meet relevant quality-related regulations of the regions where our products are developed and marketed, and to provide regulatory authorities with complete and accurate information
3. To cultivate a strong Quality Culture through continued training and officer / employee engagement
4. To assure a consistent supply of our products to our customers
5. To implement proactive actions and continuous improvement in accordance with the latest scientific approach based on knowledge management

Sawai Group officers shall demonstrate commitment to support the Quality Management System.

\*Products means all products provided by Sawai Group, regardless of whether or not compensation, such as pharmaceuticals, medical devices, combination products, health food products, and application software for health management and so on.

### Supplementary Provisions

The subdivision in control of this Policy shall be the Group Chief Quality & Safety Officer of Sawai. The amendment and repeal of this Policy shall require the resolution of the Board of Directors of Sawai Group Holdings.

Enacted and enforced on September 26, 2017
