

Improving healthcare access

Throughout the world, including Japan, many people lack access to sufficient healthcare for financial reasons. The Sawai Group strives to improve access to healthcare by developing and offering a stable supply of high-quality, high valued-added generic drugs.

Sales volume

Approx. **14.8**
billion tablets

Sawai Pharmaceutical

Share of Japan's prescription drug market (volume)

Approx. **8%**

Sawai estimate

Contributing to healthcare financing

Through the manufacture and sale of high-quality, high value-added generic drugs which are more affordable than original drugs, we are contributing to solving the social issue of rising healthcare costs associated with the falling birthrate and aging population as well as advancements in healthcare.

Amount of reduction in healthcare costs

Approx. ¥ **338.2** billion
Japan business

Approx. ¥ **99.4** billion
U.S. business

Contributing to extension of healthy life expectancy

In not only its core generic drug business but also a wide range of fields that extend from prevention to treatment, the Sawai Group provides choices not limited to health foods and drug therapies, including digital and medical devices, but has also entered the new drug business for rare diseases.

Investment in new businesses (FY2021 to FY2023)

Maximum of ¥ **30.0** billion

Developing talent

In addition to developing talent that possesses various perspectives, has the ability to make decisions on their own by reading changes in conditions, and independently takes action, the Sawai Group strives to raise corporate value by creating an environment in which each employee can demonstrate their diverse, latent abilities.
